

Mission Statement:

The mission of Timothy's House Kenya is to provide hope of a future to underserved children in the Busia, Kenya region where they had no hope, teaching them the love of Jesus along with self-care, educational, industrial, and farming skills to be taken into adulthood in order to become self-sufficient individuals.

Vision Statement:

The vision of Timothy's House Kenya is to make the orphanage self-sufficient through education, agriculture and industrial training. Our goal is to educate, feed, and teach skills to as many underserved children as possible through outside sponsorship of the children as well as outside donations to purchase land, seed and feed for crops and livestock as well as expand the on-site school to include support for all grade levels.
